**Donating wisely:** The 2009 Watchdog Report on 162 animal and environmental charities helps donors and people preparing their wills find charities that share their priorities and get the most out of a dollar. The report looks at each group's top salaries, their programs and how they spend their money. Most donors don't want their money spent on seven-figure salaries, plush offices and glossy fundraising appeals, said investigative journalist Merritt Clifton. The Watchdog lets you know which groups spend most of their money directly helping animals.
