Legal Aid does right by troubled youths

Friday, July 22, 2005

Thank you for the July 3 article about Legal Aid's innovative program to assist troubled youths in our schools. The lawyers interviewed in the article are exceptionally dedicated advocates, and I commend them for their commitment to improving opportunities and outcomes for young people.

It seems to me these interventions serve the well-being of the larger Cleveland community as well, for which I am grateful as both a parent and a citizen. Kudos to all.
