This cause came on before this Court for hearing on this the 27th day of September, 1983. The Appellant under Ohio Revised Code 2506.01 et. seq. having requested an evidentiary hearing since the Defendant failed to provide a transcript of the evidence admitted or proffered at the previous hearing and the Court granting same and notifying all counsel of this hearing date, the Court now decides as follows:

1. There is no evidence before this Court to sustain the findings of the arbitrator filed as a hearing exhibit, Plaintiff's Exhibit No. 1.
2. The finding that the Plaintiff had a resident in her household was not correct as the said Michael Darrell Woods was not a resident of the household of the Plaintiff based upon the evidence presented, and, accordingly;
3. The Plaintiff-Appellant should not have been

terminated from her rental subsidy housing allowance heretofore granted and certified by the Defendant.

As a result of the above, it is ORDERED, ADJUDGED, and DECREED that the Defendant initiate the steps necessary to re-certify the Plaintiff-Appellant as a Federal Section 8 Housing Subsidy Recipient if she is otherwise eligible.

It is so ordered.
